

Family Life Center Preview

Over 5 years ago, the Church Council met to envision the future of FBC Huffman. One of the many results of that visioning was the need for additional facilities. To realize this vision, the Master Plan & Building committee was commissioned to determine facility needs and financial feasibility of a project. The following year, a capital campaign "Gathering Together" was kicked off with a pledged commitment of approximately \$900K. During the campaign work continued on planning of the new facility. The capital campaign was successfully completed in March 2018. The concept plans for the new facility have been completed and the financial planning is being finalized.

This preview is presented to update the membership and outline the plan for completion of a new facility and realization of our ministry vision.

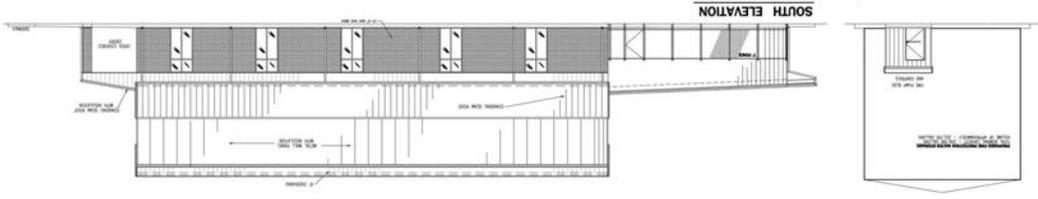

Given To-Date

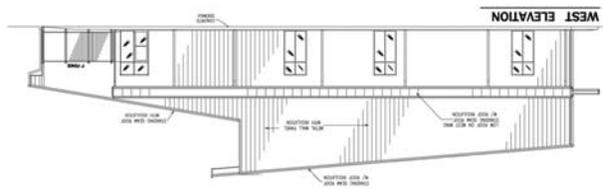

Over \$810,000.00!!!
